

Premiere AMF-20S

AMF-20S Tankless Water Heater Filter System

The Premiere AMF-20S tankless water heater filter system includes a heavy-duty water filter housing and our AMF-SDR520 scale inhibitor cartridge. This system removes sediment and protects the heat exchanger in your tankless water heater to avoid tank failure. Designed for all commercial and residential tankless water heaters including Bosch, Navien, Noritz, Paloma, Raypak, Rheem, Rinnai, Stiebel Eltron, Takagi, and more.

Features

Superior Scale Inhibitor Cartridge

- ✓ Siliphos scale inhibitor works by forming a thin protective layer on metal surfaces to inhibit deposits of scale and corrosion
- ✓ Rigid construction with 68 deep grooves. The grooves increase surface area, extend the cartridge life, and increase water filtration efficiency too

Durable Big Blue Housing

- ✓ Heavy-duty, food grade plastic housing suitable for drinking water filters
- ✓ Sturdier filter housing than others on the market — constructed with 15% more material

Added Benefits

- ✓ Screw-off lid with wrench for easy changing of the drop-in scale inhibitor cartridge
- ✓ Enjoy piece of mind with a five year warranty on the housing
- ✓ Also includes wrench, bracket, and screws

Specifications

Micron Rating	5 micron
Flow rate	16 GPM
Pipe Connection	3/4" FPT
Size	27" H X 7.75" D

Contaminant Removal

- ❖ Cloudiness / turbidity
- ❖ Sediment
- ❖ Dirt
- ❖ Silt
- ❖ Sand
- ❖ Scale
