

Premiere AMF-SDR520

AMF-SDR520 Replacement Water Filter with Scale Inhibitor

The Premiere AMF-SDR520 is the ideal replacement water filter cartridge for tankless water heater filter systems. It's a premium cartridge that removes sediment from the water and contains genuine Siliphos[®], a corrosion and scale inhibitor. This filter protects the heat exchanger in your tankless water heater and helps avoid tank failure. Recommended for commercial and residential tankless water heaters and boilers from such brands as Bosch, Noritz, Paloma, Raypak, Rheem, Rinnai, Stiebel Eltron, Takagi, and more.

Features

Corrosion and Scale Inhibitor

- ✓ The center of the water filter cartridge contains genuine Siliphos[®] corrosion and scale inhibitor which are polyphosphate silicate spheres
- ✓ Siliphos[®] forms a thin protective layer on metal surfaces to inhibit deposits of scale and corrosion

Rigid Depth Filter Construction

- ✓ Reduces unloading at high differential pressure
- ✓ 68 deep grooves increase surface area, enhance contaminant holding capacity, and promote fuller utilization of the depth-matrix for fewer cartridge change outs

Added Benefits

- ✓ Reliable water treatment system for potable and industrial water
- ✓ Made without adhesives, binders, surfactants or lubricants for compatibility in a wide range of applications and operating conditions

Specifications

Micron rating	5 micron
Flow rate	16 GPM
Size	2.58" D X 20" L
Max temp	100° F

Contaminant Removal

- ❖ Cloudiness / turbidity
- ❖ Sediment
- ❖ Dirt
- ❖ Silt
- ❖ Sand
- ❖ Scale
