

## PSE-300 Replacement Water Filter

The PSE-300 fits just like the Everpure® H-104 / H-300 replacement water filter cartridge. It has an impressive 2,500 gallon capacity which is up to 9x the gallon capacity compared to the Everpure original without any drop in water quality. It removes sediment, chlorine, cysts, and other contaminants as small as 0.5 micron to ensure the cleanest, best tasting water possible. Delivers outstanding filtration for residential and commercial applications.

### Features

#### Commercial Grade Filtration

- ✓ The stainless steel canister resists corrosion unlike plastic and protects the filter system from bursting or splitting
- ✓ High performance 2,500 gallon capacity. (The Everpure H-104 and H-300 replacement cartridges have a lower capacity of 300 – 1,000 gallons)

#### Great Tasting Water

- ✓ Keeps the vital minerals found naturally in water
- ✓ Coconut shell carbon block with 0.5 micron water filtration which absorbs offensive tastes and odors including common earthy, moldy, or fishy ones
- ✓ Reduces chlorine, chloramine, sediment, dirt, scale, and cloudiness

#### Added Benefits

- ✓ Tested to NSF Standard 42 and 53
- ✓ No activation required
- ✓ Quick, easy, and sanitary installation
- ✓ Twist-off filter head eliminates the dreaded hassle of changing water filters

### Specifications

Micron Rating	0.5
Flow rate	2.1 GPM
Capacity	2,500 gallons
Size	16.5" (end to tip)

### Substance Reduction

- ❖ Algae
- ❖ Chlorine
- ❖ Chloramine
- ❖ Cloudiness
- ❖ Cysts
- ❖ Cryptosporidium
- ❖ Dirt
- ❖ Giardia
- ❖ Lead
- ❖ Manganese
- ❖ Mold
- ❖ MTBE (methyl tertiary butyl ether)
- ❖ Oxidized iron
- ❖ Sediment
- ❖ Scale
- ❖ Sulphides
- ❖ THMs (trihalomethanes)
- ❖ VOCs (volatile organic chemicals)
- ❖ And more!
