

Premiere PSE-XC2FS

PSE-XC2FS Water Filter System

The Premiere PSE-XC2FS is a high performance water filter system for fountain beverage, drinking water, food service and combination applications. It reduces contaminants as small as 0.5 micron including sediment, chlorine taste and odor, chloramine, harmful cysts, and more to ensure the purest water possible. The PSE-XC2FS has an impressive 40,000 gallon capacity which is over 3x the gallon capacity compared to the Everpure XC2 cartridge. This complete system includes a water filter head with gauge, water filter cartridge, and mounting bracket with screws.

Features

Commercial Grade Filtration

- ✓ 40,000 gallon filter life with no drop in water quality
- ✓ Stainless steel canister resists corrosion and protects the filter system from bursting or splitting
- ✓ No bacteria growth on the filter media (bacteria growth can decrease product life)

Great Tasting Water

- ✓ Improves the taste of fountain beverages and helps retain the drink's carbonation
- ✓ Keeps the vital minerals found naturally in water
- ✓ 0.5 micron compressed coconut shell carbon cartridge reduces offensive contaminants, as well as chlorine taste and odor that can adversely affect the taste of beverages

Added Benefits

- ✓ Tested to NSF Standard 42 and 53
- ✓ No activation required
- ✓ Quick, easy, and sanitary installation
- ✓ Durable, anti-corrosive water filter head with built-in water shut-off valve and water pressure gauge to monitor pressure drop

Specifications

Micron Rating	0.5
Flow rate	2.9 gallons per minute
Capacity	40,000 gallons
Size	27.75" H X 3.75" W X 4.5" D

Substance Reduction

- ❖ Asbestos fibers
- ❖ Algae
- ❖ Chlorine
- ❖ Chloramine
- ❖ Cloudiness
- ❖ Cryptosporidium
- ❖ Cysts
- ❖ Dirt
- ❖ Giardia
- ❖ Mold
- ❖ MTBE (methyl tertiary butyl ether)
- ❖ Oxidized iron
- ❖ Oxidized manganese
- ❖ Oxidized sulphides
- ❖ Sediment
- ❖ THMs (trihalomethanes)
- ❖ VOCs (volatile organic chemicals)
- ❖ And more!
