

PS-200G Light Commercial Reverse Osmosis System

The Premiere PS-200G is a light-duty, commercial reverse osmosis (RO) system that delivers up to 200 gallons per day. It features a corrosion resistant frame-mount that can be either mounted on the wall or used as a floor mount system. There is zero waste water during the purification process, and it does not require electricity to operate. Enjoy clean, pure, delicious tasting water on demand with the PS-200G.

Features

Safe, Great Tasting Water

- ✓ Removes contaminants from your drinking water
- ✓ 0.5 micron filters also eliminate volatile organic chemicals (VOCs), chlorine, chloramines, pharmaceuticals, pesticides, lead, trihalomethanes (THMs), methyl tertiary butyl ether (MTBE), and more.
- ✓ No storage tank – enjoy clean, healthy water on demand. There is no bacteria growth in the system (storage tanks are notorious for bacteria growth).

Long Membrane Life

- ✓ Save time and money by replacing filters significantly less often with no drop in product quality

Added Benefits

- ✓ Quick, easy, and sanitary installation
- ✓ White powder coated aluminum frame that is corrosion resistant so it will not rust

Specifications

Daily Production Rates	200 GPD
Recovery Rate	1:4 Product Waste
Nominal Salt Rejection	98%
Operating Pressure	40 – 80 PSI
Operating Temperature	40 – 100° F
Water Hardness	< 120 PPM
pH Range	3 – 11
TDS	< 1000 PPM
Dimensions	7" L x 17" W x 32" H

Substance Removal

- ❖ Algae
- ❖ Chlorine
- ❖ Chloramine
- ❖ Cloudiness / turbidity
- ❖ Cysts
- ❖ Cryptosporidium
- ❖ Dirt
- ❖ Giardia
- ❖ Iron
- ❖ Lead
- ❖ Manganese
- ❖ Mold
- ❖ MTBE (methyl tertiary butyl ether)
- ❖ Oxidized iron
- ❖ Sand
- ❖ Sediment
- ❖ Silt
- ❖ Sulphides
- ❖ Tannins
- ❖ THMs (trihalomethanes)
- ❖ VOCs (volatile organic chemicals)
- ❖ And more!
